# REPAIR PARTS MANUAL

Part Number 159-0004-000  
April 2018

# DANGER

**The telehandler is not electrically insulated. Death or serious injury will result from contact with, or inadequate clearance from, an energized conductor.**

Regard all conductors as energized.

Allow for electrical wire sag and telehandler boom sway.

If the accessory carrier, accessory, boom structure, or any part of the telehandler contacts a high-voltage electrical conductor, the entire machine can become electrically charged.

If that happens, remain on the machine and do not contact any other structure or object. This includes the ground, adjacent buildings, poles, and any other objects that are not part of the telehandler.

Such contact could make your body a conductor to the other object, creating an electrical shock hazard resulting in death or serious injury.

If a telehandler is in contact with an energized conductor the operator must warn ground personnel in the vicinity to stay away. Their bodies can conduct electricity creating an electrical shock hazard resulting in death or serious injury.

Do not approach or leave the telehandler until the electricity has been turned off.

Do not attempt to operate the machine when any part of it is in contact with a high-voltage electrical conductor or if there is an immediate danger of such contact.

Personnel on or near a telehandler must be continuously aware of electrical hazards, recognizing that death or serious injury can result from contact with an energized conductor.

## **California**

### **Proposition 65 Warning**

Battery posts, terminals and related accessories contain lead and lead components, chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Wash hands after handling.

## **California**

### **Proposition 65 Warning**

Diesel and gasoline engine exhaust and some of its constituents are known by the State of California to cause cancer, birth defects or other reproductive harm.

---

# General Information

## About This Manual

This manual covers SR626 telehandlers. Information is included for machines that have been manufactured to conform to all applicable requirements of the following organizations:

- American National Standards Institute (ANSI)
- Canadian Standards Association (CSA)
- European Committee for Standardization (CE)

Part pages include a drawing and a bill of material. The bill of material lists the item number that is on the drawing, the Snorkel part number, quantity used and a description of the item.

While Snorkel has attempted in every way to confirm that all information in this manual is correct, improvements are being constantly made to the machine that may not be reflected in this manual.

If you find information in this manual that is not correct or is confusing, you are urged to report your findings to Snorkel for our evaluation. Your input is important to us and will be used in future printings of this manual.

This machine is covered by a limited warranty that specifically identifies items warrantied by Snorkel and those items covered by original manufacturer's warranty. A copy of the Snorkel Limited Warranty is located on the inside of the back cover of the telehandler operators manual.

## Repairs and Maintenance

Every person who maintains, inspects, tests or repairs the machine must be qualified and authorized to do so.

### Caution

**Do not modify this telehandler without prior written consent of Snorkel Engineering Department. Modification may void the warranty, adversely affect stability or affect the operational characteristics of the machine.**

## Additional Information

All correspondence relative to this machine, such as field reports, discrepancy reports, requests for information, etc., should be directed to:

Snorkel International, Inc.  
P.O. Box 1160  
St. Joseph, MO 64502-1160 USA  
Phone: 1-800-255-0317

<http://www.snorkellifts.com>

# Service and Parts Information

## Ordering Parts

When placing an order for service or repair parts, please have the following machine information readily available.

- Model number
- Serial number
- Snorkel part number
- Description of part
- Quantity of parts required
- Your purchase order number
- Address for order to ship to
- The desired shipment method

Parts orders may be mailed or faxed to the attention of the Parts Department at the following location:

Snorkel International, Inc.  
P.O. Box 1160  
St. Joseph, MO 64502-1160 USA

Phone: 1-800-255-0317  
Parts Fax: 1-785-989-3077

Attention: Parts Department

For your convenience, our electronic on-line ordering system is available at the following Internet location:

<http://www.snorkelusa.com>

## OSHA Compliance

All owners and users of the aerial platform must read, understand and comply with all applicable regulations. Ultimate compliance to OSHA regulations is the responsibility of the user and their employer.

## Manuals

Manuals are available from Snorkel to support any of the machines that we produce.

The specific manuals for SR626 telehandlers are as follows:

### **SR626 – Operator’s Manual CE**

Snorkel part number – 159-0003-000

### **SR626 – Repair Parts Manual**

Snorkel part number – 159-0004-000
